Charlotte Hannah is a very talented multimedia designer and developer. She was able to gain insight into my vision for Light Your Leadership Inc. and created a colour palette, a logo, and an inspiring animated video that perfectly capture the essence of the brand. Her depth, heart, and creativity really shone through from logo creation, to animation, and music selection. She also selected the music for my LYLTalk podcasts. Charlotte is also a pleasure to collaborate with - she and the Digital Main Street Team went above and beyond and completed work for me in record time. I couldn't be happier with the results. I highly recommend Charlotte to any company that wants to see their brand be brought to life.
